

Plumbing Reminders

Please review and follow the outlined points for ensuring proper disposal of items to avoid any unnecessary plumbing issues.

Do **NOT** put **ANY** of the following things listed in your sinks/toilet/bathtub:

Fat, Grease, or Oil

Personal Hygiene Products

Hygiene Wipes & Baby Wipes

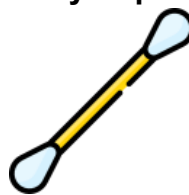

Clothing/Rags and Dish cloths

Needles + safe use supplies

Food waste

Q-tips & Cotton Balls

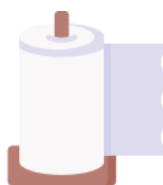

Condoms

Diapers

Dental Floss

Paper Towels

Cat Litter

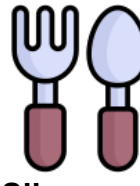

Cigarette Butts

Medications

Hair

Silverware

ONLY THE 3 P's SHOULD BE FLUSHED – PEE, POO, toilet PAPER. Make sure to do your part in ensuring your waste is properly disposed of to avoid any issues with your plumbing.

Some tips for proper disposal:

- If you have medications no longer being used, return them to the pharmacy.
- Put your used fat or grease into a glass jar. Once it has cooled down and turned into a solid, you are able to use a spoon or paper towel to scoop the grease or fat out, and properly dispose of it in the garbage.
